Then he looked eastward, straining his eyes for the flashing beat of the galley oars, for the sails of his ships coming to punish these people and save him. Seeing I had made a mistake, although I did not know what kind of mistake, I muttered. He wanted to hurt her, to shock her out of her terrible, ignorant kindness, but what he said when he finally spoke was, "I only wanted to make love to you." wizard, I thought I could be everything. But if he lets you in, then from inside you see that the door is entirely different - it's made. They stood silent, uncertain, trying to cherish hope. The dragons offered no threat during this period, and the Kargs had withdrawn into their own internal quarrels, but the disintegration of the society of the Archipelago worsened as the years went on. Moral and intellectual continuity lay only in the knowledge and teaching of The Creation and the other myths and hero-stories, and in the preservation of crafts and skills: among them the art magic used for right ends. Slavery was common to many of these states, and a stricter social caste system and gender. out of the mines, or the shipwrights' that forbade women to watch a keel laid. So both men and. So well in hand did Early have Losen's men that within two days the great fleet set forth from Havnor, gathering its tributaries on the way. Eighty ships sailed past Ark and Ilien on a true and steady magewind that bore them straight for Roke. Sometimes Early in his white silk robe, holding a tall white staff, the horn of a sea beast from the farthest North, stood in the decked prow of the lead galley, whose hundred oars flashed beating like the wings of a gull. Sometimes he was himself the gull, or an eagle, or a dragon, who flew above and before the fleet, and when the men saw him flying thus they shouted, "The dragonlord! the dragonlord!". clamour and racket of barking that woke everybody for a half-mile round except the Master, sodden. "Ivory! That fellow that studied with the Hand? Is he here?" the Changer demanded of Irian, wrathily. She stood straight and said nothing. "The wizards off on the wrong track, as usual," he said at last. "Said you'd gone to Roke Island and he'd catch you there. I said nothing." After a while Ged gently drew the older man to him and held him in his arms. He said something. "I don't know. Perhaps," she answered. She drew a deep breath. "You know, now, why I. cheek, which she had rubbed with a dirty hand. They moved a little closer so that their breasts. She blushed a little. "It hasn't been changed," he said, but he knew that was not what she meant. "I'm sorry," he said. "If I stayed a month, if I stayed the winter, would that use it up? I should have a place to stay, while I work with the beasts." It was

far more convenient to him that Losen should be king than that he himself should rule Havnor openly. Men of arms didn't trust men of craft and didn't like to serve them. No matter what a mage's powers, unless he was as mighty as the Enemy of Morred, he couldn't hold armies and fleets together if the soldiers and sailors chose not to obey. People were in the habit of fearing and obeying Losen, an old habit now, and well learned. They credited him with the powers he had had of bold strategy, firm leadership, and utter cruelty; and they credited him with powers he had never had, such as mastery over the wizards who served him. Kings, lords, and Islemen charged with defending the islands of the Archipelago came to rely on him. "friend the wise woman up to hex 'em away. Or aren't you friends anymore?" home in Havnor; the stone cell, and Hound; the brick cell in the barracks and the spell-bonds of flowers, which I inhaled eagerly. Cherry blossom? No, not cherry blossom. They were both shy. When Medra took her hand his hand shook, and Ember, whose name was Elehal, sleep all his nights in Woodedge. He prayed to it. "Take me and save me," he asked it. He made the. "We could find no trace of him. No doubt he changed himself to a bird or a fish when he left Roke, until he came to some other island. And a wizard can hide himself from all finding spells. We sent out inquiries, in the ways we have of doing so, but nothing and nobody replied. So we set off looking for him, the Summoner to the eastern isles and I to the west. For when I thought about this man, I had begun to see in my mind's eye a great mountain, a broken cone, with a long, green land beneath it reaching to the south. I remembered my geography lessons when I was a boy at Roke, and the lay of the land on Semel, and the mountain whose name is Andanden. So I came to the High Marsh. I think I came the right way." provided new clothes if Rose had asked for them, but she never did. Rose had looked after herself. go tell him that, if you like!" And so on. Old Daisy went back to her kitchen and old Coney went. The Kargish kingship, however, was already being manipulated by the high priests of the Twin Gods. "Nonsense! Not history!" said the old Namer. "The first Archmage came centuries after the last king. Roke ruled in the kings' stead." His spies had been coming to him for a year or more muttering about a secret insurgency all across. "How goes it, col?" South of Andanden lies a land where the ashes fell a hundred feet deep when last the volcano spoke. Rivers and streams cut their way seaward through that high plain, winding and pooling, spreading and wandering, making a marsh of it, a big, desolate, waterland with a far horizon, few trees, not many people. The ashy soil grows a rich, bright grass, and the people there keep cattle, fattening beef for the populous southern coast, letting the animals stray for miles across the plain, the rivers serving as fences. this infernal station, to be under the naked sky, in the open air, to see the stars, feel the wind. power; and it seemed to him that Anieb's speaking had taken away that much of Gelluk's power over. "To Roke?" She stared. "To Roke, Di? Then you really do have the gift --you could be a sorcerer?" there was no wound. Gagged and bound, without his voice and hands to work magic, he could do. These kings and queens had some knowledge of the Old Speech and of magery. Some of them were certainly wizards, or had wizards to advise or help them. But magic in The Deed of Enlad is an erratic force, not to be relied on. Morred was the first man, and the first king, to be called Mage. quicksilver, the fire must be built not of mere wood but of human corpses. Rereading and pondering. Master Hemlock's house and presence. He felt a little dead. Not dead, but a little dead. "Oh, no, you're not, Master Otak. While you were out in the east range a sorcerer curer came by, a fellow that's been here before, from the south coast, and so San hired him. You work for me and you'll be paid well. Better than copper, maybe, if the beasts fare well!" comfort to talk to him even if he was no longer there, "is get into the mountain, right inside; "The son was a fisherman who talked about his travels." Hemlock was 10th to practice any of the lesser arts of magic. He did not put out a finding spell, as any sorcerer might have done. Nor did he call to Diamond in any way. He was angry; perhaps he was hurt. He had thought well of the boy, and offered to write the Summoner about him, and then at the first test of character Diamond had broken. "Glass," the wizard muttered. At least this weakness proved he was not dangerous. Some talents were best not left to run wild, but there was no harm in this fellow, no malice. No ambition. "No spine," said Hemlock to the silence of the house. "Let him crawl home to his mother." "Very good, very good, Medra," said the wizard. "You may call me Father." "But then came the dragon, Kalessin, bearing him living. ritual, private and communal. There was no priesthood; any adult could perform the ceremonies and. After a long time, late in the afternoon, old Hound came trudging up the valley. He stopped now and then and sniffed. He sat down on the hillside beside the scar in the ground, resting his tired legs. He studied the ground where some crumbs of fresh dirt lay and the grass was bent. He stroked the bent grass to straighten it. He got to his feet at last, went for a drink of the clear brown water under the willows, and set off down the valley towards the mine. the earth, reminding the wizards and mages that their power was not theirs, but lent to them.
