She's also proficient in any martial art I can think of. And if all else fails, in her handbag she carries a .357 Colt Python with a four-inch barrel. When I first saw that bastard, I didn't believe she could even lift it. "Over there," said Amos pointing back out the door, "is that end. And over there is this end," and he pointed out the front window, "and right here is the other end." While she was stuffing Nakamura into his suit, Crawford arrived. He had walked over the folds of plastic until he reached the dormitory, then sliced through it with his laser normally used to vaporize rock samples. McKillian had had enough. "Matt, what the hell are you talking about? Rescue mission? Damn it, you know as well as I that if they find us here, we'll be long dead. We'll probably be dead hi another year." "Yes?" he asked. The two of them had managed to salvage most of the dome. Working with patching kits and lasers to cut the tough material, they had constructed a much smaller dome. They erected it on an outcropping of bare rock, rearranged the exhaust to prevent more condensation on the underside, and added more safety features. They now slept in a pressurized building inside the dome, and one of them stayed awake on watch at all times. In drills, they had come from a deep sleep to full pressure-integrity
