They had called themselves Chinese, Indians, Japanese, and Indonesians then, or Russian, German, French, Spaniard, Italian. . . but now they were all simply Chironians. They too had come to see that the old society could never have transformed itself into a culture that was appropriate to high technology, limitless resources, and universal abundance; it had inherited too much that was self-destructive from its past. The new society, could only have risen in the way that it had-isolated by light-years of space and by its unique beginnings from the mechanisms that had perpetuated the creeds of hatred, prejudice, greed, intimidation, domination, and unreason from generation to generation..Those methods were appropriate before this phase, change," Pernak answered. It was a microcosm of the whole planet, he was beginning to suspect. Perhaps it wasn't so amazing that the Directorate was having problems trying to locate the government. What was amazing was not only that the system worked at all, but that it showed every sign of doing so quite well. "Oh. Yeah. My dog," the boy says, feeling stupid and dismally incompetent at this. Wellesley raised a hand a fraction. "Be careful you don't allow this to get too personal, Howard," he cautioned. "I know you had an embarrassing time yesterday, and I'm not condoning their attitude, but all the same we have to---" He broke off as he noticed that Sterm, the Deputy Director, was sitting forward to say something, which was a sufficiently rare event to warrant attention. , "Yes, Matt?" Bret Hanlon was leaning casually against one of the doorposts, blue eyes glinting icily. His huge shoulders seeming almost to reach the other side of the door. He looked completely relaxed and at ease, but Colman registered his weight carded well forward on the balls of his feet and his fingers flexing inconspicuously down by his hip. The two corporals glanced at each other apprehensively. Hanlon's appearance altered the odds a bit. Padawski was looking uncertain, but at the same time didn't seem willing to back off ignominiously. Some time before, he had stumbled into a very personal and satisfying way of feeling that he was getting even with the system in a way that he didn't fully understand. Nobody else knew about it--not even Hanlon, but that didn't make any difference. He hadn't seen her for a while now, and he was in just the right mood..Noah raised his eyebrows. "What? The guy grinned and winked..The boy hasn't previously given much thought to the gender of the dog. Stupid, stupid, stupid..Colman was becoming irritated again. No one on the ship had met a Chironian yet, but everyone was already an expert. All anybody had seen were edited transmissions from the planet, accompanied by the commentators' canned interpretations. Why couldn't people realize when they were being told what to think? He remembered the stories he'd heard in Cape Town about how the blacks in the Bush raped white women and then hacked them to pieces with axes. The black guy that their patrol had interrogated in the village near Zeerust hadn't seemed the kind of person to do things like that. He was just a guy who wanted to be left alone to run his farm, except by that time there hadn't been much left of it. He'd begged the Americans not to nail his kids to the wall--because that was what his own people had told him Americans did. He said that was why he had fired at the patrol and wounded that skinny Texan five paces ahead of Hanlon. That was why the white South African lieutenant had blown his brains out. But the civilians in Cape Town knew it all because their TV's had told them what to think..Lechat had digested the implications by now and appeared worried. "The Ancient Egyptians had the fight idea." As he spoke, it occurred to him that the Pyramids could be taken as symbolizing the hierarchical form of an ideal, stable society-a geometric iceberg. The analogy was an interesting one. It would make a good point to bring up at the dinner party. Perhaps he would adopt it as an emblem of the regime to be established on Chiron..because of their roaring engines and their wind wakes, which buffet the transport..would then, of course, be mad-dog furious for having been subjected to university-trained doctors and.Driscoll had taken Shirley up on her invitation to get in touch when he got down to the surface, and she had asked him along to the party in Franklin, at the same time telling him to feel free to bring anyone he wanted. So Driscoll had invited Colman, Swley, Maddock, and Stanislaw, who among them had persuaded Sirocco to come too, and Sirocco had suggested bringing some of the girls from the Mayflower II.
