"What else can you do, Diamond?" he asked..her back. On her face was the same tranquil smile, directed at the empty rows of seats, which..against his thigh, dreaming. The cat's dreams came into his mind, in the low fields where he spoke."To talk."..and dark eyes under dark brows, eyes that held his, held him, brought the truth out of his mouth.."Very good, very good, Medra," said the wizard. "You may call me Father.".."Asleep." Azver nodded towards where she lay, curled up in the grass above the little falls..Patterner put it, "bigger inside than outside'. She sat down in a patch of sun-dappled shade and.."Are there any wizard musicians?" he asked, looking up..Mage..might make a good prentice, here in the palace. Maybe he could go to Roke after all, for Early was.."Maybe you can find that island," said Ayo..The people of Osskil, Rogma, and Borth are lighter-skinned than others in the Archipelago, and.No. There had been a thunderclap, a while ago. This was not thunder. He had had this queer feeling and had not recognized it, back then, before the earthquake that had sunk a half mile of the coast at Essary and swamped the wharfs at Gont Port..from women, and they want men to make the decisions for all. Now what compromise can we make with..along with him. He said, smiling and confidential, "I am one who shits moonlight. You will not."He knows a curer, maybe."..prison shut. The spells were gone, but the people in the tower did not know it, working on under.."If you wish."..He woke, as he always did, in his room in the Great House. He did not understand why the ceiling was low and the air smelt fresh but sour and cattle were bawling outside. He had to lie still and come back to this other place and this other man, whose use-name he couldn't remember, though he had said it last night to a heifer or a woman. He knew his true name but it was no good here, wherever here was, or anywhere. There had been black roads and dropping slopes and a vast green land lying down before him cut with rivers, shining with waters. A cold wind blowing. The reeds had whistled, and the young cow had led him through the stream, and Emer had opened the door. He had known her name as soon as he saw her. But he must use some other name. He must not call her by her name. He must remember what name he had told her to call him. He must not be Irioth, though he was Irioth. Maybe in time he would be another man. No; that was wrong; he must be this man. This man's legs ached and his feet hurt. But it was a good bed, a feather bed, warm, and he need not get out of it yet. He drowsed a while, drifting away from Irioth.."Put your feet up to the fire," she said abruptly. "I have some old shoes of my husbands." It cost..She gazed at him from her unreadable eyes, and finally said, "What must I do?"..the Sword, her heart grew lighter. And once, when Golden was down 'at South Port, she and Tangle..have been seven or eight; the mother was a cook at a waterfront inn. At twelve the boy had got..Growing old, Elehal wearied of the passions and questions of the school and was drawn more and.."He knows that, sister," Mead told her. Tales and songs of the heroes rose up in Medra's memory as he stood there: Erreth-..Slavery was common to many of these states, and a stricter social caste system and gender differentiation ("division of labor") than in the Archipelago..frightened..of. Do you know what I did?" He turned, showing his teeth in a rictus of triumph. "I..one day you'll have to open your mouth."..the moment I stood before them and was opening my mouth to speak, I saw that she was eating..He saw her smile, but she was also hesitant, and after a while she said, "Well, you're welcome..,power from them for himself, leaving them silent. They couldn't say what had happened to them.."Have you ever kept goats?" Dulse asked, in the same soft, polite voice.."She asked to," said the Doorkeeper..All the way down the spinning, reeking stone stairs he talked, and Otter tried to understand..,of his colleagues, no subsequent archmage seriously misused his power to weaken others or..and the women and the dirty, timid children drew closer to see the wonders he would show them.."Why can't I give myself my own true name?" Dragonfly asked, while Rose washed the knife and her hands in the salt water.."And were you. . . betrized?"..The Creation of Ea is the foundation of education in the Archipelago, By the age of six or seven, all children have heard the poem and most have begun to memorise it. An adult who doesn't know it by heart, so as to be able to speak or sing it with others and teach it to children, is considered grossly ignorant. It is taught in winter and spring, and spoken and sung entire every year at the Long Dance, the celebration of the solstice of summer.."Don't you understand?" he said, exasperated with her for not understanding, because he had not..again at Gift, and Ged did also. She looked at them both..passage..She could see his mind dance ahead of hers, taking up and playing with ideas, transforming them as..made and put against the front wall of the house. He looked upstream at her, crouching motionless..So little Diamond grew up in the finest house in Glade, a fat, bright-eyed baby, a ruddy, cheerful boy. He had a sweet singing voice, a true ear, and a love of music, so that his mother, Tuly, called him Songsparrow and Skylark, among other loving names, for she never really did like "Diamond." He trilled and caroled about the house; he knew any tune as soon as he heard it, and invented tunes when he heard none. His mother had the wisewoman Tangle teach him The Creation of Ea and The Deed of the Young King, and at Sunreturn when he was eleven years old he sang the Winter Carol for the Lord of the Western Land, who was visiting his domain in the hills above Glade. The Lord and his Lady praised the boy's singing and gave him a tiny gold box with a diamond set in the lid, which seemed a kind and pretty gift to Diamond and his mother. But Golden was a bit impatient with the singing and the trinkets. "There are more important things for you to do, son," he said. "And greater prizes to be earned."..shadows streaked the hillsides..lay entangled. They entered death's land together.."I'd say," she said, her voice thin and reedy, speaking to the curer, "that if Alder's beeves stay afoot through the winter, the cattlemen will be begging you to stay. And then, to Tern, in a different tone, "If you'd like to come with me, she lives this way. And though she's only a girl, and poor, I'll tell you, peddler, she has an open hand. Though perhaps not all of us do." Sunbright had not been gone three days when a new stranger appeared in town: a man riding up the. "I asked you not to," he said, "and it's not my need I spoke of. I talk enough for two. Never mind. You'll know what to say when the time comes. That's the art, eh? What to say, and when to say it. And the rest is silence." Irioth's head drooped as if in utter weariness. All tension and passion had gone out of his body..which the heads of giants peered, so that for a second I wondered if I might not be on board and. A young man in a grey cloak hurrying down the passageway stopped short as he approached them. He stared at Irian; then with a brief nod he went on. She looked back at him. He was looking back at her..The wind had come up again. They were both shivering, their teeth chattering. They stood face to. "Learn our strength!" said Medra..you know my name..". Otter's mother's hospitality..inertia had been annulled. How was this possible? I checked, bending my knees slightly, at three. Starving hungry, frustrated, misunderstood, Diamond reached out to hold her again, to make her. around her sandaled feet. She looked back at the Patterner and he still seemed a fragile being..". "Ah," he said. He looked away so that she could not see his expression..brought me to her place at this hour..". What he found on Roke was both less and more than the hope and rumor he had sought so long. Roke Island was, they told him, the heart of Earthsea. The first land Segoy raised from the waters in the beginning of time was bright Ea of the northern sea, and the second was Roke. That green hill, Roke Knoll, was founded deeper than all the islands. The trees he had seen, which seemed sometimes to be in one place on the isle and sometimes in another, were the oldest trees in the world, and the source and center of magic..CELIBACY AND WIZARDRY.the top of his staff, a light staff of some greyish wood. The door opened as a resonant voice. He strode from the house, turned, and set a fire spell on it so that it burst into flames, thatch. "Best come away," said the Master Windkey, his face set and sombre, his keen eyes troubled. He set off back to the School, and they straggled after him, arguing and debating in frustration and anger..the digging and the roasting?". "Craftily," said Ember..strongest. But there the Enemy followed her, intent to make her his prisoner and slave. She took. Instinctively I rubbed my hand on my trousers. "It's a rare gift, to know where you need to be, before you've been to all the places you don't. might be able to. I can feel it building up, can you?". "The Hoary Men!" said Irian, staring openly at him. All Daisy's ballads of the Hoary Men who sailed out of the east to lay the land waste and spit innocent babes on their lances, and the story of how Erreth-Akbe lost the Ring of Peace, and the new songs and the King's Tale about how Archmage Sparrowhawk had gone among the Hoary Men and come back with that ring -. There was a silence. The fire whispered..was empty, clear. She stood still and her soul seemed to go into that sky and be gone, gone out of. Then for a while he held still, body and mind, beginning to understand for the first time where. Earth in her turning to the sun makes the days and nights, but within her there are no days. Medra walked through the night. He was very lame, and could not always keep up the werelight. When it failed he had to stop and sit down and sleep. The sleep was never death, as he thought it was. He woke, always cold, always in pain, always thirsty, and when he could make a glimmer of the light he got to his feet and went on. He never saw Anieb but he knew she was there. He followed her. Sometimes there were great rooms. Sometimes there were pools of motionless water. It was hard to break the stillness of their surface, but he drank from them. He thought he had gone down deeper and deeper for a long time, till he reached the longest of those pools, and after that the way went up again. Sometimes now Anieb followed him. He could say her name, though she did not answer. He could not say the other name, but he could think of the trees; of the roots of the trees. This was the kingdom of the roots of the trees. How far does the forest go? As far as forests go. As long as the lives, as deep as the roots of the trees. As long as leaves cast shadows. There were no shadows here, only the dark, but he went forward, and went forward, until he saw Anieb before him. He saw the flash of her eyes, the cloud of her curling hair. She looked back at him for a moment, and then turned aside and ran lightly down a long, steep slope into darkness.. "My mastery is here, on Gont," he said, still speaking hardly above a whisper. "My master is." "No. I don't. Rose wouldn't teach me. She said she didn't dare. Because I had power but she didn't know what it was..". "Nonsense! Not history!" said the old Namer. Gelluk watched him with his inquisitive, affectionate look, and when Otter stood up, wincing and. The Doorkeeper shook his head, agreeing..have very dark brown skin. He had seen men beat their sons..". "This is the way in, sir..". "Suits me," said Licky..which, when touched by light, opalesced like metal. He supported by the arm a woman in scarlet..". "Will I go as a man all the way?" was one..". "You already know it. You gave it to Flag. She gave it to you. Trust..". He thought what he must do, and how he must do it. He wasn't sure whether he had summoned her or she had

come of her own will; he didn't know how she had spoken the word of the Old Tongue to him or through him. He didn't know what he was doing, or what she was doing, and he was almost certain that the working of any spell would rouse Gelluk. But at last, rashly, and in dread, for such spells were a mere rumor among those who had taught him his sorcery, he summoned the woman in the stone tower..file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (101 of 111) [2/5/2004 12:33:32 AM].The making from the unmaking..opened, I began walking..accepted the lesson. There at Yaved." He pointed to the knotted hills.He had half-consciously dreaded that Diamond would triumph over him, asserting his power right."Very well, then. Irioth, my dear companion, teacher, rival, friend, farewell. Emer, brave woman, my honor and thanks to you. May your heart and hearth know peace," and he made a gesture that left a glimmering track behind it a moment in the air above the hearth stone. "Now I'm off to the cow barn," he said, and he was..choking grip of that power..and warm in the late dusk, only the largest stars burning through a milky overcast.
