made one gesture of her hand, downward to the earth..care! To misuse a gift, or to refuse to use it, may cause great loss, great harm."..at the dock to take her, and the wind, I can tell you, will stand fair for Way."..The Creation of Ea contains no clear references to an original unity and eventual separation of dragons and humans, but this may be because the poem in its presumed original form, in the Language of the Making, dated back to a time before the separation. The best evidence in the poem for the common origin of dragons and humans is the archaic Hardic word in it that is commonly understood as "people" or "human beings," alath. This word is by etymology (from the True Runes Atl and Htha) "word-beings," "those who say words," and therefore could mean, or include, dragons. Sometimes the word used is alherath, "true-word-beings," "those who say true words," speakers of the True Speech. This could mean human wizards, or dragons, or both. In the arcane Lore of Paln, it is said, that word is used to mean both wizard and dragon..Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the prisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them..Of them all it was the Herbal, the healer, who was the first to move. He went up the path and knelt down by Thorion. "My lord," he said, "my friend."..him. The thing that was hopping up and down on the grass between their bare toes was a rock. Nobody should ought to meddle with sorcery that ain't born to it. Nor with sorcerers. You forget that. They seem the same as other folk. But they ain't like other folk. Seems there's no harm in a curer. Heal the foot rot, clear a caked udder. That's all fine. But cross one and there you are, fire and shadows and curses and falling down in fits. Uncanny. Always was uncanny, that one. Where'd he come from, anyhow? Answer me that..Men and women of the Hand had joined together on Roke a hundred or more years ago, forming

Despite his ranting and scolding against dragon hunters, High-drake had been honored in his island, and his successor would have both honor and power. Perhaps tempted to think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer on

Pendor. He went out with the young lord in his ship, past the Toringates and far into the West Reach, to look for dragons. There was a great longing in his heart to see a dragon. But untimely storms, the evil weather of those years, drove their ship back to Ingat three times, and Medra refused to run her west again into those gales. He had learned a good deal about weatherworking since his days in a catboat on Havnor Bay..on the pretty black mare that his employer had given him for his use when he made it clear that he.ship in port, and none has come into Thwil Bay since the one that brought you, lady, and sailed.When he was Gelluk's prentice and assistant, he had encouraged his master in the study of the lore.sea, until in a final terrible flight they passed the Dragon's Run and came to the last island of.mouth, froze in readiness..said that to make love is to unmake power."When he saw it, faint and green above the misty sea, he cried out-the men in the ships heard the dragon scream-and flew on faster, leaving them to follow him to the conquest..Ivory looked at that hill with a kind of longing hatred..let the mare have her head when somebody came among the dogs shouting curses and beating them back.us, to life, to bear that word. He was always a little reluctant to enter the witch's house, a pungent, disorderly place thick with the mysteries of women and witchcraft, very different from his own clean comfortable home, even more different from the cold austerity of the wizard's house. So the.Dulse wandered about a bit before he found what he took to be the Dark Pond. It was small, half mud and reeds, with one vague, boggy path to the water, and no track on that but goat-hoofs. The water was dark, though it lay out under the bright sky and far above the peat soils. Dulse followed the goat-tracks, growling when his foot slipped in the mud and he wrenched his ankle to keep from falling. At the brink of the water he stood still. He stooped to rub his ankle. He listened..the yells of gulls and dockworkers wreathing the air with a thin, ungainly music, he shut his eyes."Hungry? Eat," he said..The curer checked the girths, eased a strap, and got up in the saddle, not expertly, but the hinny made no objection. They grew flax on Pody, and there were stone retting houses, now mostly unused, and looms to be seen by the windows of some of the houses. In a little square where there was shade from the hot sun four or five women sat spinning by a well. Children played nearby, listless with the heat, scrawny, staring without much interest at the strangers. Tern had walked there unhesitating, as if he knew where he was going. Now he stopped and greeted the women..You can know anything you like. I need have no secrets from you. Nor you from me," and he laughed..
