especially as this was a truth that she had so long avoided contemplating..Kalens raised his head sharply. "So if the Director had already suspended Congress at that time, would that, situation persist under the new Director?" He thought for a moment, then added, "I would assume it must, Surely. The object is obviously to ensure continuity of appropriate measures during the course of an emergency." Sirocco shrugged. "I'm pretty sure it can't be Wellesley. He's tried to play it straight, it's all sweeping him way out of his depth. Anyhow, what would he have to gain? All he wants to do is to be put out to pasture; he's only got a few days left. Ramisson obviously wouldn't be involved in something like that, and the same goes for Lechat. But as for the rest, if you ask me, they're all crazy. It could be any of them or all of them. But that's who the Chironians are really after." After trembling against the boot toe, the five-dollar bill blows free . . . and twirls under the truck... Jean took the boots and turned them over in her hands. Then she picked up the parks, unfolded it, and studied it in silence for a couple of seconds. "But . . . these are good, Jay," she said. A concerned expression spread over her face. "Where . . . how did you get them? I mean... what's all this going to cost?" "I was only trying to?" Pernak twisted his face through a few contortions, then sighed again. "I know. That crossed my mind too, but what is there to provoke any real trouble? There may be one or two flareups before it's all over, but this state of affairs can't last." He shook his head. "We're convinced 'this is the only way to go. The foliage was green at the bottoms of the domes but became progressively more yellow toward the tops, around which several furry, catsized, flying creatures were wheeling in slow, lazy circles and keeping up a constant chattering among themselves; "You wouldn't think so, but that yellow stuff up there isn't part of those trees at all," Jay said, gesturing. "Jeeves told me about it. It's a completely different species"--a kind of fern. Geneva slid the dish of garnishes across the table..As though privy to Micky's thoughts, the girl said, "Everything I've ever told you is the truth."."We can probably figure out a way to get you into the house, Veronica. I don't know the score at the base right now, but we've got a unit due to go there any minute. That means you'll have to trust some other guys too. Okay?". "You've already worked most of that out.".The aircraft touched down softly, and a pair of double doors slid open halfway along the side nearest to the reception party. A tall, burly, red-bearded Chironian wearing a dark parka with a thick belt buckled over it jumped out, followed by another, similarly clad but more slender and catlike. More figures became visible inside when the cabin light came on. Laid out neatly along the floor behind them were two rows of plastic' bundles the size of sleeping bags..Costello routine involving gestures instead of banter, the fallen woman at her side whimpered pitiably.,EVEN IN HIS short time at the university near Franklin, Jerry Pernak had learned that Chironian theoretical and experimental physics had departed significantly from the mainstream being pursued on Earth. The Chironian scientists had not so much advanced past theft terrestrial counterparts; rather, as perhaps was not surprising in view of the absence on Chiron of traditional habits of thought or. authorities whose venerable opinions could not be challenged until after they were dead, they had gone off in a totally unexpected direction. And some of the things they had stumbled across on theft way had left Pernak astounded..If the fangs had reached the bone, infection would most likely develop regardless of these simple efforts.Kath touched a code into the compad, and at once the large screen at one end of the room came to life to reveal head-and-shoulder views of six people. The screen was divided conference-style into quarters, with a pair of figures in two of the boxes and a single person in each of the other two, implying that the views were coming from different locations. Kath noticed the concerned look that flashed across Bernard's face. "It's all right," she told him. "The channels are quite secure.. "Ex-sergeant Malloy of the

"But why does it have to be over?" She looked imploringly at Bernard. "We were happy all those years in the ship, weren't we? We had our friends, like Jerry and Eve, we had the children. Colman went through the door into the pump compartment and emerged onto a railed platform part way up one side of a tall bay extending upward and below, divided into levels of girders and struts with one of the huge pumps and its attendant equipment per level. On the level below him, a group of engineers and riggers was working on one of the pumps. They had removed one of the end-casings and dismantled the bearing assembly, and were attaching slings from an overhead gantry in preparation for

withdrawing the rotor. Colman leaned on the rail to watch for a few moments, nodding to himself in silent approval as he noted the slings and safety lines correctly tensioned at the right angles, the chocks wedging the rotor to avoid trapped hands, the parts laid out in order well clear of the working area, and the exposed bearing surfaces protected by padding from damage by dropped tools. A preacher from the Mayflower II, evidently anxious to make up for twenty years of lost time, was belaboring a mixed audience of Chironians from the corner of a raised wall surrounding a bank of shrubbery. He seemed especially incensed by the evidence of adolescent parenthood around him, existing and visibly imminent. The Chironians appeared curious but skeptical. We can be frank without fear of risking offense. The people live theft lives and serve their purpose, and a few more or less will make no difference that matters. Now tell me again, who are you really worried about?".The house around her was another part of it. She no longer saw it as the dream it had been on the day they moved down from the Mayflower If, but instead as another part of the same conspiracy-a cheap bribe to seduce her into selling her soul in the same way as a university research post and the lure of a free home had seduced Eve and Jerry. Chiron didn't want to let her be. It wanted her to be like it. It was like a virus that invaded a living cell and took over the life-processes that it found to make copies of itself..Colman was nonplussed. He shook his head as if to clear ? it.
