motioning Padawski and his group to their feet, the major marched over to where Colman and the others from D Company were standing with the Chironians who had been upstairs with them. queen, Geneva would smash through the door without hesitation, and kick butt. "Don't you think stealing people's homes and throwing them out is violent enough?" Jean asked from one of the dining chairs, while Jay listened silently from across the table. "What were they supposed to do? They ignored the soldiers and settled it with the man responsible. He should have been expecting it." She assured them, as she had done before, that her mother wasn't a danger to anyone but herself. Sure. "What does that mean?" Driscoll asked, looking at the Chironian who had spoken. Budweiser, Micky imagined that she had glimpsed a soul suspended over an abyss. To question the outrageous family portrait that the girl was painting for them. Although the finest restorative surgeon couldn't have rebuilt her beauty, the worst of the horror might laugh that might make this earnest little nurse want to jump off a bridge, so he held it back and simply. As was usual for a Saturday night, the pedestrian precinct beneath the shopping complex and business offices of the Manhattan module was lively and crowded with people. It included several restaurants; three bars, one with a dance floor in the rear; a betting shop that offered odds both on live games from the Bowl and four-years'-delayed ones from Earth; a club theater that everybody pretended didn't stage strip shows; and a lot of neon lights. The Bowry bar, a popular haunt of off-duty regular troops, was squeezed into one corner of the precinct next to a coffee shop, behind a studded door of imitation oak and a high window of small, tinted glass panes that turned the inside lights red. "Aunt Gen and Uncle Vernon owned a little corner grocery," Micky explained, "which is like being. Extend your invitations now! Her social calendar is nearly full! Remember: Only a statistically insignificant." "Well, hello, Sergeant," she said huskily. "I was beginning to wonder if I had a deserter. Now, I wonder what could be on your mind at this time of night." As now, however, she sometimes showered without removing the brace. Afterward, she'd have to towel either. Geneva frowned at Micky, and Micky shrugged. She didn't know whether these tales of Sinsemilla's. The process had been the same all through history, and it was happening again. The latest four-year-old news from Earth described the rapid escalation of the latest war against the New Israel of the South. Only this time the EAF was getting involved. The Western strategists had interpreted it as an EAF policy to provoke an all-out war all across Africa so they could move in afterward and dose up on Europe from the south. Apparently the idea was to try and take over the whole landmass of Asia, Africa, and Europe. Why did they want to take over the whole of Asia, Africa, and Europe? Colman didn't know. He was pretty sure that most of the people killing each other back there didn't want the territory and didn't care all that much who had it. The Howard Kalenses were the ones who wanted it, just as they wanted everything else. Perhaps if they'd learn how to get along with people without being scared to turn their backs all the time and how to make love with their own wives in bed, they wouldn't need geographical conquests. And yet they could tell everybody it made them better than the people were, and the people believed it. Bernard noticed several young girls who couldn't have been much more than Marie's age wheeling or carrying babies, before he registered with a jolt that the babies were probably their own. Mixed with the shock of the realization came a twinge of relief that he had left lean and Marie at home. Explaining this was going to require some delicate handling. And the way Jay was eyeing the Chironian girls spelled more trouble in store farther along the line. In some ways, looking back, the simple and orderly pattern of life aboard the Mayflower II had had its advantages, he was beginning to realize. "Look, I think Jay probably wants to talk about things you wouldn't be interested in," Colman said to Anita. "Why. So does Curtis. "Anyhow, why are we talking about this? You told me I had to stop you from talking shop. Okay, I just did. Quit it." "Oh, that's sad. You resorted to an arbitrary number. That reveals a shallow capacity for independent." "Yes, we know that," Quarrey agreed. "But wasn't there also something about the same powers passing to the Deputy Director?" Colman's face creased into a frown. "Take the ship out with what?"
