Since time immemorial, until the reign of Heru, they had used only the outmost isles of the West Reach-which may have been the easternmost borders of their own realm-for meeting and breeding, and had seldom even been seen by most of the islanders. Naturally irritable and arrogant, the dragons may have felt threatened by the increasing population and prosperity of the Inner Lands, which brought constant boat traffic even out in the West Reach. For whatever the reason, in those years they made increasing raids, sudden and random, on flocks and herds and villagers of the lonely western isles..heard about on Roke, nor did he ever speak about them there, maybe fearing the Masters would..a fox. I think there's a Master Chanter on Roke, that teaches the lays and the histories. But I never heard of a wizard being a musician.".."We do not teach women here," said the Windkey. "You know that."..They brought him one boy. The other had jumped from the ship, crossing Havnor Bay, and been killed by a crossbow quarrel. The boy they brought was in such a paroxysm of terror that even Early was disgusted by him. How could he frighten a creature already blind and beshatten with fear? He set a binding spell on the boy that held him upright and immobile as a stone statue, and left him so for a night and a day. Now and then he talked to the statue, telling it that it was a clever lad and might make a good prentice, here in the palace. Maybe he could go to Roke after all, for Early was thinking of going to Roke, to meet with the mages there..breath smelled earthy. His light eyes gazed directly into Otter's eyes. Ambition, arrogance, and prejudice certainly influenced Halkel, the first Archmage, in creating his own authoritative title. Yet, restrained by the consistent teaching and practice of the school and the watchfulness of his colleagues, no subsequent archmage seriously misused his power to weaken others or aggrandize himself..Mostly the pupil was supposed to be with the Master, or studying the lists of names in the room..The witch emerged with a soapstone drop-spindle and a ball of greasy wool. The shrubs and scrubby grass that had been green that day were dun and dry, and the wind rattled the last leaves on the bushes. To their left a little stream ran low among willow thickets.
