"There are some units moving down the opposite slope, but they won't be in position for about another thirty minutes." The glow from the screen highlighted the mystified look that flashed across his face. He shrugged. "Right now they're wide open, right down below us." Nolan had shrugged, too, and dismissed her from his mind. But that night as he lay on his bed, .Major Thorpe, Electronics Intelligence Officer at Brigade H.Q., had read somewhere that spinach and fish were sure remedies for failing eyesight, so he placed Corporal Swyley on an intensive diet. But Swyley hated spinach and fish even more than he hated being tested, and within a week he was afflicted by acute color-blindness, which he demonstrated by refusing to see anything at all in even the simplest of training displays..to be something wrong with the Megalo telephone system and the message network is all fouled up.. The magazine has a reputation for offering variety, and to uphold that image, it seems to me that it must carefully avoid trends and formulas in an effort to publish a balance of different types of fantasy and sf. And so we continue to look for good writing and fresh ideas and entertaining narratives, and once those general criteria are satisfied, we take on whatever seems to be pleasing our writers at the time. The site had been chosen because it was a smooth area, allowing easy access up a gentle slope to the flat plains of the Tharsis Plateau, while at the same time only a kilometer from the valley floor. No one could agree which area was most worthy of study: plains or canyon. So this site had been chosen as a compromise. What it meant was that the exploring parties had to either climb up or go down, because there wasn't a damn thing worth seeing near the camp. Even the exposed layering and its areological records could not be seen without a half-kilometer crawler ride up to the point where Crawford had climbed to watch the sunrise..The Podkayne was lowered to the ground, and sadly decommissioned. It was a bad day for Mary Lang, the worst since the day of the blowout. She saw it as a necessary but infamous thing to do to a proud flying machine. She brooded about it for a week, becoming short-tempered and almost unapproachable. Then she asked Craw-ford to join her in the private shelter. It was the first time she had asked any of the other four. They lay in each other's arms for an hour, and Lang quietly sobbed on his chest. Crawford was proud that she had chosen him for her companion when she could no longer maintain her tough, competent show of strength. In a way, it was a strong thing to do, to expose weakness to the one person among the four who might possibly be her rival for leadership. He did not betray the trust. In the end, she was comforting him..the small door firmly behind him..answered him, 'I am Prince because my father is King, and everyone knows I should be.' Then the
