

THE TENDER CONSCIENCE

The car shuddered, wrenched steel screamed, and a cry of triumph rose from the rescuers..The big-headed, bulging-eyed, slit-mouthed runt had collected \$850,000 from Naomi's death, so the least he could do was provide a little information. He'd probably bill for the time, anyway.. "Each life," Barty Lampion said, "is like our oak tree in the backyard but lots bigger. One trunk to start with, and then all the branches, millions of branches, and every branch is the same life going in a new direction."..He didn't know what he was looking for. He simply felt empowered to be the one conducting the surveillance for a change..Because he genuinely liked women and hoped always to please them, always to be discreet and chivalrous and giving, Junior did as she wished, spinning a vivid account of the grisly vengeance he would take if ever Seraphim told anyone what he'd done to her. Vlad the Impaler, the historical inspiration for Brain Stoker's Dracula--thank you, Book-of-the-Month Club--could not have imagined bloodier or more horrific tortures and mutilations than those that Junior promised to visit upon the reverend, his wife, and Seraphim herself Pretending to terrorize the girl excited him, and he was perceptive enough to see that she was equally excited by pretending to be terrorized..Briefly, Junior felt humiliated. He wanted to drag the detective out of the car and stomp on his smug, dead face..Now, twenty-four hours later, when Sparky answered his telephone and heard Tom Vanadium, he said, "You looking for a little company? I've got another bottle of Merlot where the last one came from."..On the morning of November third, Barty asked Maria to inquire of Agnes what she would like to have read to her. "Then when she answers you, just turn and leave the room. I'll take it from there."..To Perri's bed, a journey of only a few steps, but farther than unwanted Rome. The carpet seeming to pull at his feet, to suck like mud under his shoes. The air as thick as liquid in his resistant to his progress..Paul withdrew the pistol from the drawer. The weapon didn't feel as good to him as guns always felt in the hands of pulp heroes..And although Simon would have denied it, would even have joked that a conscience was a liability for an attorney, he possessed a moral compass. When he traveled too far along the wrong trail, that magnetized needle in his soul led him back from the land of the lost.. "Really? You really think that?" he asked in his flat voice, which he sometimes wished were more musical, but which he knew lent a sober conviction to anything he said. "You think something so delicious could come from a fat, smelly, dirty, snorting old pig?"..Not cheerful, life-loving, high-spirited, churchgoing Naomi. She saw every day through a golden haze that came from the sun in her heart..His mother tried to explain. "It's as if you'd found some great jewel," she said, "and what's one of us to do with a diamond but hide it? Anybody rich enough to buy it from you is strong enough to kill you for it. Keep it hid. And keep away from great people and their crafty men!"..people that he was innocent and, in fact, constitutionally incapable of premeditated murder..the hilly streets of the city, ignoring all traffic lights and stop signs, pegging the speedometer needle at its highest mark, as though he might eventually be air-cooled by sufficient speed. He wanted to slam through unwary pedestrians, crack their bones, and send them tumbling..As a recreational site, Quarry Lake could be judged only a partial success. During the mining operation, trees were cleared well back from the edge of the dig, so that much of the shore would be unshaded on a hot summer day. And along half the strand, signs were posted warning Ungraded Shore: Immediate Deep Water. In places, where lake met land, the bottom lay over a hundred feet below..On Joey's side, there was no family to provide help. His mother had died of leukemia when he was four. His dad, fond of beer and brawling--like father not like son--was killed in a bar fight five years later. Without close relatives willing to take him in, Joey went to an orphanage. At nine he wasn't prime adoption material--babies were what was wanted--and he'd been raised in the institution.. "I've seen them," Tom assured her. "My dear, you've never smelled anything better than a field full of bacon vines."..Shortly after six o'clock, Saturday morning, she stirred from a fretful dream and saw Barty sitting up in bed, reading.. "No. Lampion. Somewhere in your father's French background, there must have been lamp makers. A lampion is a small lamp, an oil lamp with a tinted-glass chimney. Among other things, in those long ago days, they used them on carriages."..Only madmen were capable of such butchery. Hopeless lunatics like Ed Gein, out there in Wisconsin, arrested just seven years ago, when Junior had been sixteen. Ed, the inspiration for Psycho, had constructed mobiles out of human noses and lips. He used human skin to make lampshades and to upholster furniture. His soup bowls had once been human skulls. He ate the hearts and selected other organs of his victims, wore a belt fashioned from nipples, and occasionally danced under the moon while masked by the scalp and face of a woman he had murdered..Those words, in a vertiginous spiral, spooled through the memory tapes in Junior's mind, as clear and powerfully affecting--and every bit as alarming--as the memory flash of the ordeal in the Dumpster. He couldn't recall where he'd heard them, who had spoken them, but revelation trembled tantalizingly along the rim of his mind..Their evenings together were comfortable bliss, though usually they just watched television, or he read to her. She enjoyed being read to: mostly historical novels and occasional mysteries..Eye to eye with Tom, Celestina herself did some clear-seeing. "You're special, too, in lots of obvious ways. But like Angel, you're special in some secret way ... aren't you?"..As the paramedic shoved the gurney across the step-notched bumper, its collapsible legs scissored down. Agnes was rolled headfirst into the ambulance..The words of Robert Louis Stevenson, well read, poured another time and place into the room as smoothly as lemonade pouring from pitcher into glass..He wanted Celestina to sit in her seat and use her lap belt, but she insisted on cuddling next to him, as if she were a high-school girl and he were her teenage beau.. "Making too many wrong choices," Grace White said, "produces too many branches--a gnarled, twisted, ugly growth."..Serving a formal dinner was Agnes's way of declaring--to herself more than to anyone else in attendance--that the time had come for her to get on with life for Bartholomew's sake, but also for her own..She was forty-three, so young to have left such a mark upon the world. Yet more than two thousand people attended her funeral

service-which was conducted by clergymen of seven denominations-and the subsequent procession to the cemetery was so lengthy that some people had to park a mile away and walk. The mourners streamed across the grassy hills and among the headstones for the longest time, but the presiding minister did not begin the graveside service until all had assembled. None here showed impatience at the delay. Indeed, when the final prayer was said and the casket lowered, the crowd hesitated to depart, lingering in the most unusual way, until Barty realized that like he himself, they half expected a miraculous resurrection and ascension, for among them had so recently walked this one who was without stain..His attention, as morbid as a circling vulture, settled upon the pianist's right hand. The left was open, palm down. But the right was crumpled shut, palm up.. "Last I noticed, his car was out. Let me check." Sparky put down his phone and went to look in the garage. When he returned, he said, "Nope. Still out. When he parties, he usually parties late." A table candle glowed in an amber glass. To Nolly, in this glimmering light, Kathleen's face was more radiant than the flame..The machine, one in a bank of four, wasn't filled with ordinary newspapers, which cost only a dime, but with a raunchy tabloid aimed at heterosexual swingers..Junior had no idea who the driver of the Buick might be, but he hated the tall lanky son of a bitch because he figured the guy was humping Celestina, who would never have humped anyone but Junior if she had met him first, because like her sister, like all women, she would find him irresistible. He felt that he had a prior claim on her because of his relationship to the family; he was the father of her sister's bastard boy, after all, which made him their blood by shared--progeny..The apartment above Elena's Fashions could be reached by a set of exterior stairs at the back of the building. The climb had never before taxed Agnes in the least, but now it took away her breath and left her legs trembling by the time she reached the top landing..Junior forgot all about seduction. "And she--what?--She adopted her sister's baby?". "I'm going to recommend that you be admitted overnight and that we lance these under hospital conditions. We'll use a sterile needle on some of them, but a number are so large they're going to require a surgical knife and possibly the removal of the carbuncle core. This is usually done with a local anesthetic, but in this instance, while I don't think general anesthesia will be required, we'll probably want to sedate you that is, put you in a twilight sleep." At the grave, they arrived with red and white roses. Agnes carried the red, and Barty brought the white..More likely than not, Victoria spoke directly to the maniac detective. Even if she reported her sordid fabrications to another officer, it would have gotten back to Vanadium, and the cop would have sought her out at once to hear her filth firsthand, whereupon she would have enhanced her story until it sounded as though Junior had grabbed her knockers and had tried to shove his tongue down her throat..They came to the house in Boatwright Street after dark. They kicked the door in, and Hound, standing among the armed and armored men, said, "Him. Let the others be." And to Otter he said, "Don't move," in a low, amicable voice. He sensed great power in the young man, enough that he was a little afraid of him. But Otter's distress was too great and his training too slight for him to think of using magic to free himself or stop the men's brutality. He flung himself at them and fought them like an animal till they knocked him on the head. They broke Otter's father's jaw and beat his aunt and mother senseless to teach them not to bring up crafty men. Then they carried Otter away..When he reached the Suburban and closed his right hand around the handle on the driver's door, he felt something peculiar against his palm. A small, cold object balanced there..As best he could, he examined his clothes. They were better pressed than he expected, and not noticeably soiled..Otter said nothing..In the kitchen, he fussily avoided the blood and stepped around Victoria to switch off both ovens. He killed the gas flame under the large pot of boiling water on the cook top..mother's understanding of the world and of her own existence. Unlike most other toddlers, Barty was entirely comfortable with change. From bottle to drinking glass, from crib to open bed, from favorite foods to untried flavors, he delighted in the new. Although Agnes usually remained near at hand, Barty was as pleased to be put temporarily in the care of Maria Gonzalez as in the care of Edom, and he smiled as brightly for his dour uncle Jacob as for anyone..Pecan cakes, cinnamon custard pies boxed in insulated coolers, gifts wrapped with bright paper and glittery ribbons. Agnes Lampion made deliveries to those friends who were on her list of the needful, but also to friends who were blessed with plenty. The sight of each beloved face, each embrace, each kiss, each smile, each cheerfully spoken "Merry Christmas" at every stop fortified her heart for the sad task awaiting her when all gifts were given..Kaitlin had the piercing voice and talent for vituperation that marked her as a member of the Hackachak tribe, but for now she was content to leave the vocal assault to her parents. The stare with which she drilled Junior, however, if brought to bear on a promising geological formation, would core the earth and strike oil in minutes..Minutes later, once more in a corridor conference with Dr. Daines, she was forced to temper her new optimism..Professing befuddlement, the galerieur led the way through three rooms to the front windows, gliding across the polished maple floors as though he were on wheels..Dragonfly. "I've always wanted to learn the piano myself," Junior claimed, "but I guess you really have to start young." The candlestick was dry. Holding this pewter bludgeon with a paper towel, Junior replaced it on the table as he had found it. He picked up the candle from the floor and married it to the stick..This didn't work for Junior. Strangely, when he focused on a mental image of any fruit-apple, peach, banana-his thoughts drifted to sex. He became aroused and had no hope of clearing his mind.. "If they always go there, smooch--smooch, then you're going to wind up with one really fat finger." *.His patience exhausted, the pianist wrenched his hand out of Junior's grip. He glanced around nervously, certain that they must be the center of attention, but of course the reception guests were lost in their witless conversations, or they were gaga over the maudlin paintings, and no one was aware of this quiet little drama..Junior lifted the pattie with a fork, found no quarter under it, and put the meat on one half of the bun. He constructed the sandwich from these fixings, added ketchup and mustard, and took a great, delicious, satisfying bite..Edom felt uneasy in this kingdom of a strange god. The god that his brother feared was humanity, its dark compulsions, its arrogance. Edom, on the other hand, trembled before Nature, whose wrath was so great that one day she would destroy all things, when the

universe collapsed into a super dense nugget of matter the size of a pea..Anyway, the thing that scared her was not the monstrous father of this child. The fearsome thing was the decision that she had made a few minutes ago, in the unused hospital room on the seventh floor..Bartholomew didn't merely have something to do with babies. Bartholomew was a baby..Otter was reluctant to answer. He had to like Hound, but didn't have to trust him. "Shape-changing," he mumbled at last..Neither of them needed to confirm their mutual attraction with even so much as an additional nod or a smile. Victoria knew, as he did, that their time would come, when all this current unpleasantness was I behind them, when Vanadium had been thwarted, when all suspicion had been forever laid to rest.."I don't have to graduate in the spring of next year. I can take fewer classes, graduate the spring after. That's no big deal."..He shouldered past two counter waitresses, past the short-order cook who was working eggs and burgers and bacon on the open griddle and grill. Whatever expression wrenched Junior's face, it must have been intimidating, for without protest but with walled alarm, the employees squeezed aside to let him pass..Junior and Naomi had taken their dried apricots from the same bag. Reached in the bag without looking. Shook them out into the palms of their hands. She could not have controlled which pieces of fruit he received and which she ate..Although she already knew that the answer could not be cheerily optimistic, Celestina wondered, "Is the baby likely to be . . . normal?.."With her brothers, she adjourned to the waiting room, where the three of them sat drinking vending-machine coffee, black, from paper cups..EVERY MOTHER BELIEVES that her baby is breathtakingly beautiful. She will remain unshakably convinced of this even if she lives to be a centenarian and her child has been harrowed by eight hard decades of gravity and experience..Now Junior threw back the covers and sprang out of bed. In double briefs, he restlessly roamed the hotel room.."Wouldn't live in the Caribbean if you paid me," Bill said. "All that humidity. All those bugs."..Wally switched off the engine and killed the headlights. "Home, where the heart is."..Ministering to Perri, Joshua had pulled back her blankets. The fabric of the pale yellow pajama pants couldn't disguise how terribly withered her legs were: two sticks..He gently drew the covers over his wife's ruined body, to her thin shoulders, but arranged her right arm on top of the blankets. He straightened and smoothed the folded-back flap of the top sheet..Leaning forward from his armchair, white hair as radiant as the wings of cherubim, Obadiah waved one misshapen hand over the deck, never closer than ten inches to the cards. "Now please spread them out in a fan on the table, facedown."..From Sparky, Tom Vanadium had borrowed a master key with which he could open the door to Cain's apartment, but he preferred not to employ it as long as he could enter by a back route. The less often he used the halls that were frequented by residents, the more likely he would be able to keep his flesh-and-blood presence a secret from Cain and sustain his ghostly reputation. If too many tenants got a look at his memorable face, he would become a topic of discussion among neighbors, and the wife killer might tumble to the truth.."Maybe he's a character I saw in a movie or read in a novel. I'm a member of the Book-of-the-Month Club. I'm always reading one thing or another. I don't remember a character named B-Bartholomew, but maybe I read the book years ago.".."Thirsty," Agnes rasped. Her voice was Sahara sand abrading anient stone, the dry whisper of a pharaoh's mummy talking to itself in a vaulted sealed for three thousand years..The following April, when he proposed to her, she wouldn't have him. "You're sweet, Paul, but I can't let you throw your life away on me. You're this ... this beautiful ship that will sail a long way, to fascinating places, and I'd only be your anchor."..An exceptionally attractive woman, alone at the bar, stirred his desire. Glossy black hair: the tresses of night itself, shorn from the sky..The moon shimmered, and the stars blurred-but only briefly, for her devotion to this boy was a fiery furnace that tempered the steel of her spine and brought a drying heat to her eyes. Without Franklin Chan's full approval but with his complete understanding, Agnes took Barty home. On Monday, they would return to Hoag Hospital, where Barty would receive surgery on Tuesday..The currents of irrational fear, which bring periodic turbulence to virtually every childhood, didn't disturb the smoothly flowing river of Barty's first three years. He showed no fear of the doctor or the dentist..Hers were the most feminine hands he'd ever seen. Slender, soft, prettier than Naomi's. He had no idea what she was talking about..Now came a slight but real risk of being heard inside: He pulled the trigger. The flat steel spring in the lock-release gun caused the pick to jump upward, lodging some of the pins at the shear line. The snap of the hammer against the spring and the click of the pick against the pin tumblers were soft sounds, but anyone near the other side of the door would more likely than not hear them; if she was one room removed, however, the noise would not reach her..He rolled Neddy onto one side, but no gold watch lay underneath, so he let the musician flop onto his back again..What he learned working with his father and uncle in the shipyard he could use, at least; and he was becoming a good craftsman, even his father would admit that..'A energy fighting over jurisdiction. We cooperate. The sheriff can de not to put a lot of his limited resources into this, and no one will blame him. He can call it an accident and close the case, and he won't..And though Barty was not shy, neither was he a show-off. He didn't seek praise for his accomplishments, and in fact, they were little known outside of his immediate family. His satisfaction came entirely from learning, exploring, growing.."Why? What was he going to get out of it?.."A great boom. Concussion rocked the floor and shuddered the walls and made the roof timbers squeal as though unsuspected colonies of bats had taken flight by the thousands all in the same instant..a time, from the carafe on the nightstand. She spooned the ice into Junior's mouth not with the businesslike..around an anemone's mouth, poised to snare, lazily but relentlessly, any passing prize.."Get this through your head, you shit-for-brains. I lost a daughter, a precious daughter, my Naomi, the light of my life."..Nolly sighed. "Well, I guess if you were going to just plug him, you could've done that already, soon as you got to town."..Opening his eyes, still not daring to meet Victoria's gaze, Junior knew she had registered and properly interpreted his response to her seductive spooning. She had frozen, the utensil in midair, and her breath had caught in her throat. She was thrilled..The pewter bludgeon slammed into the back of his skull with a hard pack. The scalp tore, blood sprang forth, and the man fell as hard as Victoria had fallen under the influence of a good Merlot, although he went

facedown, not faceup as she had done..Almost thirty years from the seminary--even farther from it if measured by degrees of lost innocence, by miles of rough experience Tom Vanadium set out to kill a man. Given the chance to disarm Cain, given the opportunity to merely wound him, he would nevertheless go for the head shot or the heart shot, play jury and executioner, play God, and leave to God the judgment of his stained soul..Joey was standing just outside, gazing in at her. His blue eyes were seas where sorrow sailed..He had assumed that the dinner guest was Victoria's lover, but suddenly he realized that this might not be the case. The man might be nothing more than a friend. Her father or a brother. In which case the invitation to romance--posed by the coquettishly arranged wine and rose--would be so wildly inappropriate that the visitor would know at.The way one does research into nonexistent history is to tell the story and find out what happened. I believe this isn't very different from what historians of the so-called real world do. Even if we are present at some historic event, do we comprehend it--can we even remember it--until we can tell it as a story? And for events in times or places outside our own experience, we have nothing to go on but the stories other people tell us. Past events exist, after all, only in memory, which is a form of imagination. The event is real now, but once it's then, its continuing reality is entirely up to us, dependent on our energy and honesty. If we let it drop from memory, only imagination can restore the least glimmer of it. If we lie about the past, forcing it to tell a story we want it to tell, to mean what we want it to mean, it loses its reality, becomes a fake. To bring the past along with us through time in the hold-alls of myth and history is a heavy undertaking; but as Lao Tzu says, wise people march along with the baggage wagons..Grace, proving again the aptness of her name, said the one thing most likely, in time, to bring true peace to Celestina. "Remember Bartholomew." I'll put you in a twilight sleep, you babbling cretin. Where'd you earn your medical degree, you nattering nitwit? Botswana? The Kingdom of Tonga?.The cop had unzipped the top of her jogging suit and pulled up the roomy T-shirt.She knew that the front door was locked, too, because Wally had waited to hear the deadbolts clack shut. Nevertheless, she stepped into the hall, where the light wasn't on, walked quickly past Angel's bedroom, came to the entrance to the lamplit living room--and saw a man backing through the open front door, dragging something, dragging a dark and large and heavy rumpled something, dragging a..As mentally demanding and stressful as it was to maintain this borrowed sight, the harder thing was looking once more upon her face, after all these years of blindness, only to see her gaunt, so pale. The vital, lovely woman whose image he had guarded so vigilantly in memory would be nudged aside hereafter by this withered version.
