He spent most of August, when he should have been on vacation, trying various methods of detecting sound through the device. By focusing on the interior of a speaker's larynx and using infrared, he was able to convert the visible vibrations of the vocal cords into sound of fair quality, but that did not satisfy him. He worked for a while on vibrations picked up from panes of glass in windows and on framed pictures, and he experimented briefly with the diaphragms in speaker systems, intercoms and telephones. He kept on into October without stopping and finally achieved a system that would give tinny but recognizable sound from any vibrating surface?a wall, a floor, even the speaker's own cheek or forehead..otherwise rather plain face, giving her the look of a Renaissance Madonna and adding nostalgic charm to her loose topknot of copper hair and high-waisted Regency-style dress..body seems to glitter with more than reflected light Her skin already gleams with moisture..International Red Cross and to volunteer organizations in Europe, Asia and Africa.
