It's all fact, about the guy who went. But this evening as Amos came into the tavern, Billy was quiet, and so was everyone else. "Oh, sure. I'm all right I'll be fine in the morning." Here comes the second reason, then. There's an evolutionary advantage to sexual reproduction that more than makes up for all the inconveniences. \* In cloning, the genetic contents of new organisms remain identical with those of the original organisms, except for occasional mutations. If the organism is very efficiently adapted to its surroundings, this is useful, but it is an extremely conservative mechanism that reduces the chance of change.
